BOILER TREATMENT  
Alkalinity Supplement

Visit: [www.TheWaterTreatmentStore.com](http://www.TheWaterTreatmentStore.com)

### Description

Solid form, alkalinity addition agent.

### Function

This is a treatment containing a solid form of Hydroxide Alkalinity. When added to water systems, it increases the alkalinity. This product is especially suited for raising the alkalinity in boiler feedwater with make-up waters low in alkalinity such as RO water.

### Application/Feedrate

When used in a dissolving system such as Solv-Ultima 150, a solution strength of approximately 10 - 20% will be attained in the reservoir.

**Extreme care must be taken when handling this product (please see MSDS). When dissolution of product takes place, water temperature may increase. This solution is also hazardous and extreme caution with appropriate warning labels should be maintained on the reservoir.**

Please see your water treatment consultant for more information.

### Testing & Control

Testing	In Boiler Water
p-Alkalinity	250 – 600 ppm

### Feeding

Suggested use with SolvUltima™ mixing boards:

All Solv-all™ boards; Hydro Solv-Ultima™ series.

### Packaging/Storage/Handling

Packaged in 4 x 1 gallon containers per case. Case weighs 40 lbs. Follow MSDS. Properly stored product will remain effective 24 - 36 months. Store in cool, dry area.
