## Specialty Products Available For Sale

The specialty products shown here are representative of the hundreds that we sell for different equipment and water types. Please enter any specific requirements you may have on our contact page, and we will get back to you within one business day.

If you purchase a case of any of our solid products we will throw in a free test kit appropriate for the product that you purchased. This offer does not apply to the Boiler Lizard® or the drip pan treatments.

### Boiler Lay Up Products:

#### Dry Lay Up

#### Boiler Lizard®

**Description:** Cortec's Boiler Lizard® contains Vapor phase Corrosion Inhibitor (VpCI™) powder in a polyvinyl alcohol (PVA) water-soluble bag. The powder formulation is free of phosphates, heavy metals, nitrites and free amines. Designed for dry lay-up of boilers, the Boiler Lizard® powder protects metals in enclosed spaces.

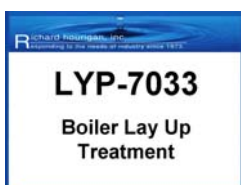

#### VCI-FE Lay Up Powder

**Description:** Our VCI-FE Lay Up Powder contains Volatile Corrosion Inhibitors to protect a boiler during a dry storage or metals in any enclosed space. This product is completely soluble in water and can also be used as a corrosion inhibitor for hydro-testing a boiler. The powder formulation is free of phosphates, heavy metals, and nitrites. Dosage of this product along with other selected products can be found in the Boiler Capacity section of the Resource Page of this web site.

#### Wet Lay Up

#### LYP-7033

**Description:** Our LYP-7033 Liquid Lay Up treatment includes Sulfite, Alkalinity builders, and Amines to protect the boiler both above and below the water line during wet storage. This product is not to be used for storage under freezing conditions. This product is to be used with our Lay-Up procedure on the Resource Center Page.

## On-Line Cleaners:

### Boiler Cleaners

#### SBW-4700-S

**Description:** Our SBW-4700-S Solid Boiler WaterSTX product is a complete boil-out treatment for new boilers. It will remove mill scale, protective oils and greases prior to placing a new boiler or a recently re-tubed boiler into service. This product is to be used with our Boil-Out procedure on the Resource Center Page.

## Miscellaneous Treatment Products:

### Cooling Tower White Rust Passivation Product

#### SCW-1800-S

**Description:** Our SCW-1800-S Solid EnduroSolv Cooling WaterSTX product is an On-Line White Rust Passivator for new cooling towers and evaporative condensers which is to be used in conjunction with the procedures found in the AWT White Paper on White Rust.

### Concrete Market Products

#### CreteTreat

**Description:** Our CreteTreat Solid EnduroSolv product is the first hot water treatment product designed especially to be used in the Concrete Industry. CreteTreat has been tested for Compressive Strength and certified for this application by Garco Testing Laboratories, a nationally recognized laboratory for the concrete industry.

### Drip Pan treatments

#### No Slime Strip

**Description:** Our EPA Registered **No Slime Strip** is a complete product for the treatment of air conditioner drain pans, dehumidifiers, computer room equipment, coolers, refrigerated vending machines, display cases and cold storage walk ins. The Polymeric packaging releases a constant dose of microbiocide, odor neutralizers, corrosion and scale inhibitors. It is pH-7 neutral and is non-corrosive to metallic surfaces.

## Lubricants

### Green Rhino Lubricant

**Description:** Green Rhino is the environmentally safe alternative to WD-40™. Green Rhino is an excellent all-purpose, penetrating lubricant that cleans and protects, penetrates and loosens, displaces moisture and eliminates squeaks; and, best of all, does it with a **non-toxic, non-flammable, environmentally sound formulation**. Green Rhino does not contain any VOCs. (Volatile Organic Compounds) which contribute to global warming...its not hazardous to your health, nor to the health of others.
