1st Quarter/2015

Issue: 1

Welcome to Richard Hourigan, Inc.

Dear Richard,

Richard Hourigan, Inc. is a full service Water Treatment Company treating industrial and commercial water for heating and cooling applications. Our office is located in Bear, Delaware, but we are currently doing business in 40 countries through our online store whose URL is: www.TheWaterTreatmentStore.com.

Our principal, Dick Hourigan, is an Analytical Chemist who entered the industry in 1973. We provide product, advice, and service on all aspects of water treatment. The advice is always FREE. It is our intent to provide you with meaningful information and to become an asset to you regarding water treatment and environmental issues whether you buy from us or not. We hope, of course, you will give us an opportunity to earn your business, when you do buy.

Products are offered at a 10% discount. Shipping is free anywhere in the lower 48 states of the USA if your order exceeds \$100.00 on all but a few large items.

Not all of the products we offer are available on the store for immediate purchase. Most of what we sell are custom orders in response to a specific customer request. So if you don't see it, [contact us](#) and give us an opportunity to fill your needs.

Richard Hourigan, Inc. is a:

- Member of the Better Business Bureau with an A+ rating.
- Member of the Association of Water Technologies (AWT).
- Veteran Owned Small Business, registered on SAM.GOV.

Our Commitment to You

Dick Hourigan

We take seriously our commitment to serve the customer both in the field and on the Internet.

We and our suppliers stand behind every product that we sell.

Our company has an A+ rating with the Better Business Bureau, [click here to view the details.](#)

As a Member of the Better Business Bureau we ascribe to their Code of Business Practices. To view these, [Click Here.](#)

If at anytime you wish to contact us with a request for a service, for a product or for any other reason, [Click Here.](#)

We sell Taylor Technologies Test Kits at a 10% Discount.

Do you need high quality water testing kits for your facility? We have aligned ourselves with Taylor Technologies, one of the world recognized leading suppliers of water test kits. Their product line is geared toward Boilers, Cooling Towers, Water Softeners, Swimming Pools, and Spas. We sell every product that Taylor offers. All of our Taylor Technologies Test Kits are sold to you for 10% below retail (provided your order retails for over \$25.00).

How "Green" is Your Chemical Treatment Program?

Before we get started, let's make it clear that we are not aware of any current objective standard for Green Chemistry.

But we think we have the products that provide the greenest technology that actually works.

Liquid water treatment chemicals can create a lot of waste and potential damage to our environment. They increase fuel costs and many contain unnecessary caustic soda that is included only for the purpose of maintaining a stable liquid formulation. This chemical risk is unnecessary with our solid formulations. [Click here to view our fact sheet.](#)

Solid Product with Feeder

We now sell a complete line of solid boiler water and solid closed loop products on the store. Our solid cooling tower and solid biocide products will be added to the store before the Spring. Discounted pricing is viewable at check out before your credit card information is requested.

To view a video on the application of our solid technology to your facility or new construction job, [Click Here](#).
