## SECTION 1:

### OUR DISTRIBUTOR NETWORK - listed by state, then city, then company, then phone number

Distributors are the preferred way we provide products to the pool/spa market. The companies below have demonstrated they adhere to the highest standards of business practice; they are knowledgeable about the industry; they are familiar with Taylor products; they are responsive to customers; they provide fair pricing; and they offer quality service. **If the item you're seeking is not in stock when you call, ask the distributor to have it drop-shipped from us directly to your location. There is no extra charge to the distributor for this service.**

## SECTION 4: ORDERING/SHIPPING INFORMATION

### DOMESTIC INQUIRIES

#### Distributor Network

Resellers and others in the trade may order Taylor pool and spa test kits and reagents through our nationwide network of 380+ distributor locations. We're proud that the best distributors in the pool and spa industry have chosen to make our products available to you. Stocking distributors are listed by state on page 2. Call us at **800-TEST KIT** (837-8548) if you need any assistance in locating or contacting our partners. While anyone is welcome to establish an account directly with Taylor, we believe you'll find that purchasing through our distributors is good business from both a cost and service perspective.

**Note:** *There are hundreds of items in our pool and spa product line. No distributor can stock them all. But a Taylor distributor can ask to have any item drop-shipped directly to his customer from our factory to shorten delivery time. (We do not charge extra for this service to distributors and we do not impose a minimum order requirement.)*

#### Contacting Taylor

Address all correspondence to:

Customer Service Department  
TAYLOR TECHNOLOGIES, INC.  
31 Loveton Circle  
Sparks, MD 21152-9206

Customer service representatives are available to assist you personally from 8:00 a.m. to 5:00 p.m. (Eastern Time), Monday through Friday. Call toll-free **800-TEST KIT** (837-8548). You may also record a message for us outside normal business hours by using this toll-free number or leave an e-mail message using [customerservice@taylortechnologies.com](mailto:customerservice@taylortechnologies.com).

You may fax your inquiry anytime to 410-771-4291. In addition, you can reach all departments during normal business hours (8:00 a.m. to 4:45 p.m. Eastern Time) by calling 410-472-4340.

To contact any department through our website, go to [www.taylortechnologies.com](http://www.taylortechnologies.com).

#### Ordering Direct

If you already have an account with Taylor, please have your account number ready when calling to place an order. Knowing the part number (or product description), size, and quantity desired will help speed this transaction. Customer service representatives are trained to repeat all phone orders to assure correct information before giving your

confirmation order number. To prevent duplicate shipments, please do not send written confirmation for phone orders.

If you have not established open terms with us, we accept VISA®, MasterCard®, Discover®, American Express®, C.O.D., and check-in-advance orders. Ask for a Credit Application and Account Profile Questionnaire to establish an open billing account. (You may also download these forms from our website, [www.taylortechnologies.com](http://www.taylortechnologies.com), or complete them online.)

Upon request, a Material Safety Data Sheet (MSDS) will be included for all chemical products in an order. MSDSs for Taylor reagents also may be printed from our website; go to "Documents" in the "Product Info" drop-down. Faxed information will be provided in emergencies.

#### • terms of sale

All sales are F.O.B. Sparks, Maryland. Payment of invoices is net 30 days for customers with open billing accounts. Prices in this Price List are shown in US dollars and are subject to change without notice. A handling charge (maximum \$7.50 at this printing) is added to factory-direct phone/fax/e-mail orders totaling less than \$25 list price. (Exceptions are flagged.) Taylor pool/spa distributors can order for you without incurring this charge.

**Note:** *Pricing for the upcoming year is posted on our website in December.*

#### • shipping

We maintain an extensive inventory to expedite shipments, so that many domestic orders are shipped within two business days and most will have shipped by five days from placement. (International orders may take five to seven days to ship.) Some reagents are made to order and may require additional turnaround time. Please discuss time-sensitive orders with your customer service representative. In emergencies, we may be able to alter our production schedule to accommodate a rush order. All rush orders are assessed a \$25 special-handling charge.

Taylor will determine the fastest and most economical means of shipping an order—within prevailing shipping regulations—unless a carrier is specified. Most orders are shipped via United Parcel Service (UPS) ground service. UPS imposes restrictions and special charges for transporting hazardous materials. And, since shipping regulations prevent packing most hazardous materials together, the order may require several cartons. Special packaging to meet transportation standards may also increase the shipping charge. "Dangerous goods" airfreight packaging charges will apply if the order is requested to be sent via Federal Express. Ask your customer service representative to explain the shipping charges.

**Note:** *Taylor cannot assume responsibility for freezing conditions. It is the purchaser's responsibility to request "protect from freezing" insurance with a motor-freight carrier. A minimum fee of \$100 in addition to actual shipping charges will apply.*

#### • return policy

**Please check your order upon receipt since exchanges or credits are only considered within 30 days of shipment.** If there is any problem, please contact customer service. You can assist us by referring to the Taylor order number on your packing slip. If return of merchandise is necessary, your representative will advise you about shipping regulations and generate the appropriate authorizations.

Taylor will issue a Return Authorization (RA) number to the buyer and forward a shipping label with instructions for returning the merchandise. Items must be returned within 30 days. Questions about repacking the order should be directed to Taylor's traffic manager at 410-472-4340. Returns without proper documentation will be refused. Customer service will advise if a 20% restocking charge applies to the return.

If any part of the order has been damaged by the carrier during the shipping process, retain the original carton and packing materials and immediately contact the carrier for an inspection. (As a courtesy, we can do this for you when the carrier is UPS.) If needed, Taylor will assist you by placing a new order while your claim is being processed.

**Note:** *Unless reagents were shipped in error by Taylor or compromised before shipping, they cannot be returned for credit. You will need to know the lot number, located on the bottom right-hand corner of the label, to apply for a credit.*

### INTERNATIONAL INQUIRIES

#### Canadian Inquiries

Lowry & Associates of Newmarket, Ontario, is the master distributor for all Taylor products sold in Canada. For assistance call 905-836-0505 (fax 905-895-4539; [www.lowryassociates.ca](http://www.lowryassociates.ca)).

#### Inquiries from Outside the US & Canada

There's always something new waiting for you at

# www.taylor technologies.com

Our home on the Web is always evolving, with new or enriched content awaiting you at every visit. Far more than an online store, taylor technologies.com is designed to be your favorite destination when the subject is analyzing pool/spa water chemistry:

On our site you can read or print out Material Safety Data Sheets and instructional articles; download photography, line art, and copy for your catalogs, fliers, and other promotional materials... see all the components of a test kit... watch a product demo... preview test instructions before making a purchase.

You can input your Taylor test kit readings to get pool treatment recommendations in your choice of generic or branded products.

You'll find the answers to frequently asked questions about our business practices, a helpful glossary of water chemistry terms, links to related websites, a calendar of speaking and teaching engagements, and opportunities for you to participate in decisions we make about our product lines.

Have a technical question? Want sales or marketing support? Got a bee in your bonnet? We've made it easy to contact the right person.

We've also posted news about products and upcoming events.

If you have colleagues unfamiliar with Taylor, they'll want to check out the testimonials from other customers, read about how we became known as "the most trusted name in water testing," and meet the people behind the brand. (Even old friends might find these sections interesting, particularly the virtual tour of our production facilities.)

We've made it easy to locate our distributors too; just click on **Links to Affiliates** in the drop-down menu under the **Contact Us** button.

So bookmark us and come back often. Our home is your home!
